To locate the defect, please follow these steps:

1. Check the fuse in the main plug.
2. Make sure each lamp is screwed firmly into the lamp holder.
3. If the lamp still doesn't work, replace with a new lamp.

How to remove the light and replace the lamp

1. Disconnect from the main supply before removing the light or replacing the lamp.
2. Remove the shade before replacing the lamp.
3. Make sure the lamp is cold, then unscrew the lamp.
4. Insert a new lamp, screw down clockwise until it makes contact (see fig.).
