FOUNDATION

EN

Site Preparation!

- Base or foundation must be flattened, leveled and prepped prior to installing the product!
- The product must be built on a solid level surface in order to perform properly. We recommend using concrete or wood deck as base.

✳ We recommend checking for restrictions or covenants for building this product in your area. In addition we advise you to check if you need to submit any forms or if any permits are required prior to building the product.

- Clear the surface of loose impediments
- Level the ground surface

✳ See below 2 recommended options

A Solid Base (Concrete / Concrete Wall / Pressure Treated Wood / Wood Deck) (drawing)

B Ground Surface (grass / soil) (drawing)

- In order to allow easy access during assembly, make sure you clear the surface around the product's assembly site.
- Make sure you have at least 5 cm (2 in.) between the product's base and the edge of your foundation.

A
Secure the product to the solid base of your choosing using suitable screws and plugs or masonry anchors. (Not supplied)

B
Secure the product to the ground surface using suitable pegs. (Not supplied)

Baustellenvorbereitung!

- Der Boden oder das Fundament müssen vor der Montage des Produkt planiert, nivelliert und vorbereitet werden!
- Der Produkt muss auf einem festen, ebenen Untergrund errichtet werden, um seine Funktion einwandfrei leisten zu können. Wir empfehlen die Verwendung von Beton oder eines Holzdecks als Untergrund.

✳ Wir empfehlen die Prüfung auf Einschränkungen oder Verpflichtungen an Ihrem Wohnort hinsichtlich dem Erbau dies Produkt. Darüber hinaus empfehlen wir Ihnen, vor dem Bau des Produkt zu prüfen, ob Sie irgendwelche Formulare ausfüllen müssen oder ob Genehmigungen erforderlich sind.

- Entfernen Sie die jegliche Hindernisse von der Oberfläche.
- Bodenoberfläche nivellieren

✳ Siehe unten zwei empfohlene Optionen

A Massiver Untergrund (Beton / Betonwand / Druckbehandeltes Holz / Holzdeck) (Zeichnung)

B Bodenoberfläche (Gras / Erde) (Zeichnung)

- Um einen leichten Zugang während der Montage zu ermöglichen, ist darauf zu achten, dass die Oberfläche um den Montageort des Produkt herum frei ist.
- Stellen Sie sicher, dass Sie mindestens 5 cm (2 in.) zwischen dem Schuppenboden und dem Rand Ihres Fundaments haben.

A
Befestigen Sie das Produkt mit geeigneten Schrauben und Dübeln, oder Mauerwerksdübeln an einem festen Untergrund Ihrer Wahl. (nicht mitgeliefert)

B
Befestigen Sie das Produkt mit geeigneten Dübeln am Boden. (nicht mitgeliefert)

DE

FR

La préparation du terrain !

- La base ou la fondation doivent être aplaties, nivelées et préparées avant l'installation du produit !
- Le produit doit être construit sur une surface de niveau solide afin de fonctionner correctement. Nous recommandons l'utilisation de béton ou le plancher en bois comme fondation.

✳ Nous recommandons la vérification des restrictions ou les accords de construction de cette produits dans votre région. Nous vous recommandons de vérifier si vous avez besoin de soumettre des formulaires ou si des permis sont requis avant la construction du produit.

- Dégagez la terrain des obstacles libres
- Nivelier la surface du terrain

✳ Voir deux options recommandées ci-dessous

A Base Solide (béton / mur en béton / bois traité sous pression / terrasse en bois) (dessin)

B Surface au Sol (gazon / sol) (dessin)

- Afin de permettre un accès facile pendant l'assemblage, assurez-vous de dégager la surface autour du site de montage du produit.
- Assurez-vous d'avoir au moins 5 cm (2 po) entre la base du produit et le bord de votre fondation.

A
Fixez le produit à la dalle de béton à l'aide de vis et de chevilles appropriées ou d'ancres de maçonnerie. (Les vis et les chevilles ou les ancres de maçonnerie ne sont pas fournis)

B
Fixez le produit à la surface du sol en utilisant des chevilles appropriés. (Non fourni)

¡Preparación del Sitio!

- ¡La base o cimentación debe estar aplanada, nivelada y lista antes de instalar el producto!
- El producto debe construirse sobre una superficie sólida y nivelada para funcionar correctamente. Recomendamos usar una plataforma de concreto o madera como base.

✳ Recomendamos verificar restricciones u ordenanzas para la construcción de esbo producto en su área. Además, le aconsejamos que verifique si necesita enviar algún formulario o si se requieren permisos antes de construir el producto.

- Despeje la superficie de obstáculos sueltos
- Nivele la superficie del suelo

✳ Abajo, vea 2 opciones recomendadas

A Base Sólida (Hormigón / Panel de Hormigón / Madera Prensada / Deck de Madera) (dibujo)

B Superficie del suelo (césped / tierra) (dibujo)

- Para permitir un fácil acceso durante el montaje, asegúrese de despejar la superficie alrededor del sitio de montaje del producto.
- Asegúrese de tener al menos 5 cm (2 pulgadas) entre la base del producto y el borde de su cimiento.

A
Asegure el producto a una base sólida de su elección, utilizando tornillos y tacos adecuados o anclajes de mampostería. (No incluido)

B
Asegure el producto a la superficie del suelo, utilizando estacas adecuadas. (No incluido)

ES

HE

* ראה שתי אפשרויות מומלצות להלן:

A בסיס מוצק (בטון / משטח בטון / עץ מטופל / דק עץ) (שרטוט)

B קרקע (דשא / אדמה / חצץ) (שרטוט)

- בכדי לאפשר גישה קלה במהלך ההרכבה, וודאו כי פיניתם את השטח סביב אתר בניית המוצר
- וודאו כי יש לכם מרחק של לפחות 5 ס"מ בין בסיס המוצר והקצה של היסודות שלכם.

A

חזקו את המוצר אל משטח הבטון באמצעות ברגים מתאימים או עוגנים מותאמים לבטון (ברגים ועוגנים אינם מסופקים)

B

חזקו את המוצר אל הקרקע באמצעות יתדות מתאימים (יתדות אינם מסופקים)

הכנת האתר!

- יש ליישר ולשטח את הבסיס או היסודות לפני התקנת המוצר!
- המוצר חייב להיות בנוי על משטח מאוזן ויציב בכדי שהוא יעמוד בתנאי מזג האוויר. אנו ממליצים להשתמש במשטח בטון או בדק מעץ כבסיס.

* אנו ממליצים שתבדקו הגבלות לבניית המוצר באזורכם. כמו כן אנו מציעים לבדוק אם יש להגיש טפסים או אם היתר לבניית המוצר נדרש, לפני בניית המוצר.

- נקה את פני השטח מחומרים מיותרים
- פלס את פני השטח.

NN

Klargjøring!

- Sokkelen eller underlaget må bearbejdes, jevnes ut og klargjøres før produktet monteres!
- Produktet må monteres på et fast og jevnt underlag slik at den kan stå støtt. Vi anbefaler å bruke betong eller plattform av tre som fundament.

* Vi anbefaler at du undersøker om det finnes restriksjoner for oppsett av dette produktet der du bor. I tillegg er det lurt å undersøke om du må sende inn søknad eller om det er nødvendig med eventuelle tillatelser før du oppset produktet.

- Rydd området for søppel og skrot
- Jevn ut bakken

* Se under 2 Anbefalte alternativer

A Solid fundament (betong / betongvegg / trykkbehandlet tre / tredekk) (tegning)

B Fundament av jord (gress / jord) (tegning)

- For at det skal være lett å komme til for montering, må du sørge for å rydde både på og rundt området.
- Sørg for at det er minst 5 cm mellom bodens sokkel og kanten på fundamentet.

A

Fest produktet til det fundamentet du velger ved hjelp av egnede skruer og pluggar eller murankre. (Ikke levert)

B

Fest produktet til jordoverflaten ved hjelp av egnede pinner. (Ikke levert)

SV

Platsförberedelse!

- Basen eller grunden måste vara tillplattad, utjämnad och förberedd innan du monterar produkten!
- Produkten måste byggas på en fast och slät yta för att kunna fungera ordentligt. Vi rekommenderar att du använder betong eller trädäck som bas.

* Vi rekommenderar att du kontrollerar restriktioner eller överenskommelser för bygga denna produkt i ditt område. Vi rekommenderar dessutom att du kontrollerar om du behöver skicka in några blanketter eller om några tillstånd krävs innan du bygger produkten.

- Rensa ytan från lösa hinder.
- Jämna ut markytan

* Se nedan 2 rekommenderade alternativ

A Fast grund (Betong/ Betongvägg / Tryckbehandlat trä / Trädäck) (ritning)

B Markgrund (gräs/ jord) (ritning)

- För att möjliggöra enkel åtkomst vid montering, se till att du rensar ytan runt produktens monteringsplats.
- Se till att du har minst 5 cm (2 tum) mellan produktens bas och kanten på din grund.

A

Säkra produkten till den valfria fasta grunden med hjälp av lämpliga skruvar och pluggar eller murareankare. (Medföljer ej)

B

Säkra produkten till markytan med hjälp av lämpliga tappar. (Medföljer ej)

FI

Kohteen valmistelu!

- Pohja tai perustus on tasoitettava, oikaistava ja valmistettava ennen vajan asennusta!
- Vaja on rakennettava kiinteälle, tasaiselle pinnalle, jotta se toimii oikein. Suosittelemme betonin tai puulattian käyttämistä pohjana.

* Suosittelemme selvittämään alueesi vajojen rakentamiseen liittyvät rajoitukset tai toimenpiteet. Lisäksi kehotamme selvittämään, onko tarve toimittaa erityisiä lomakkeita tai vaaditaanko vajan rakentamiseen luvan hakemista.

- Tyhjennä irtopäälysteen pinta
- Tasaa pohjapinta

* Katso alta 2 suosittelua vaihtoehtoa

A Kiinteä alusta (betoni / betoniseinä/ painekäsitelty puu / puulattia) (piirustus)

B Maa-alusta (ruoho/maa) (piirustus)

- Jotta työskentely kokoamisen aikana on helppoa, varmista, että vajan kokoamispaikan ympäristö on vapaa.
- Varmista, että sinulla on vähintään 5 cm (2") tilaa vajan alaosan ja perustuksen reunan välillä.

A

Kiinnitä tuote valitsemaasi kiinteään alustaan sopivilla ruuveilla ja tulpilla tai muurauksankkureilla. (Eivät sisälly toimitukseen)

B

kiinnitä tuote alustaan sopivilla tapeilla. (Eivät sisälly toimitukseen)

DA

Forberelse af opsætningstedet!

- Din base eller grundlag skal være fladt, jævnt og forberedt, før produktet installeres.
- Produktet skal opsættes på en solid base for at fungere. Vi anbefaler at anvende beton eller et trægulv som base.

* Vi anbefaler at tjekke regler og lign. omkring opsætning af produktet i dit område. Vi anbefaler desuden at tjekke, hvorvidt du vil skulle indsende formularer, eller om tilladelser kræves, før opsætning af produktet.

- Rengør overfladen for løse genstande, som kunne komme i vejen
- Gør overfladen jævn

* Se to anbefalede muligheder herunder

A **solid base (beton / betonvæg / trykbehandlet træ / trædæk)** (tegning)

B **Jordoverflade (græs / jord)** (tegning)

- For nemt at kunne tilgå området, hvor produktet sættes sammen, så sørg for at du rydder op omkring samlingsstedet.

- Sørg for at du har mindst 5 cm mellem produktet base og kanten af dit grundlag.

A

Fastgør produktet til den solide base, du vælger, ved hjælp af passende skruer og stik eller murværk ankre. (Medfølger ikke)

B

Fastgør produktet til jordoverfladen ved hjælp af passende stifter. (Medfølger ikke)

IT

Come preparare il sito:

- La piattaforma o le fondamenta devono essere appiattite, livellate e preparate prima di installare il prodotto!

- Il prodotto deve essere costruito su una superficie solida per garantire una resa adeguata. Si raccomanda l'uso di piattaforme in cemento o in legno.

* Si prega di verificare le restrizioni e le convenzioni vigenti nella vostra zona, per quanto riguarda la costruzione di questo prodotto. Inoltre, si raccomanda di verificare se sia necessario inviare dei moduli e/o ottenere dei permessi prima di iniziare la costruzione del prodotto.

- Rimuovere qualunque ostacolo dalla superficie scelta
- Livellare la superficie del terreno

* Si prega di far riferimento alle 2 seguenti opzioni consigliate:

A **Base solida (calcestruzzo / muro di cemento/ legno trattato a pressione/ piano di legno)** (disegno)

B **Superficie del terreno (erba/terreno)** (vedi immagine)

- Per consentire un comodo accesso durante l'assemblaggio, assicurarsi di ripulire la superficie attorno al sito di assemblaggio del prodotto.

- Assicurarsi di avere a disposizione almeno 5 cm (2 pollici) tra la base del prodotto e il bordo delle fondamenta.

A

Ancorare il prodotto alla solida base di vostra scelta utilizzando viti e tasselli adeguati o ancoraggi in muratura. (Non forniti)

B

Fissare il prodotto alla superficie del terreno usando dei pioli adatti. (Non forniti)

NL/BE

Voorbereiding van de site!

- De basis of de fundering moet worden afgemalen, geëgaliseerd en geprepareerd voorafgaand aan het installeren van de het product!

- De het product moet op een solide, vlakke ondergrond worden gebouwd om goed te kunnen functioneren. We raden aan om beton of een houten dek als basis te gebruiken. De loods

* We raden u aan te controleren of er beperkingen of convenanten zijn voor het bouwen van een het product in uw regio. Daarnaast adviseren wij u om te controleren of u formulieren moet insturen of dat er vergunningen vereist zijn voordat u de het product gaat bouwen.

- Ontruim het oppervlak van losse voorwerpen
- Breng het grondoppervlak waterpas

* Zie hieronder 2 aanbevolen opties

A **Een stevige basis (beton / betonnen muur / met druk behandeld hout / houten terras)** (tekening)

B **Grondoppervlak (gras/grond)** (tekening)

- Om tijdens de montage gemakkelijk toegang te krijgen, moet u het oppervlak rondom de montageplaats van de het product schoonmaken.

- Zorg ervoor dat u ten minste 5 cm (2 in.) tussen de basis van de het product en de rand van uw fundering zit.

A

Bevestig het product aan de solide basis van uw keuze met geschikte schroeven en pluggen of bevestigingsklauwen. (Niet meegeleverd)

B

Bevestig het product aan de grond met behulp van geschikte pluggen. (Niet meegeleverd)

SK

Príprava miesta!

- Než začnete Produkt stavať je potrebné si pred prípravou, zarovnať a uhladiť podklad alebo základy!

- produkt musí byť postavená na pevnej rovnej ploche, aby sa mohla správne používať. Odporúčame vám ako podklad použiť betón alebo drevo.

* Odporúčame vám skontrolovať obmedzenia alebo nariadenia na výstavbu produkt vo vašom okolí. Taktiež vám odporúčame, aby ste si zistili, či potrebujete vyplniť akékoľvek formuláre, alebo či potrebujete povolenie pred výstavbou produkt.

- Vyčistite povrch od rôznych prekážok
- Zarovnajte plochu

* Pozri nižšie na 2 odporúčané možnosti

A **Pevné základy (betón / betónová stena / tlakom ošetrované drevo / drevená podlaha)** (obrázok)

B **Povrch zeme (tráva / pôda)** (výkres)

- Uistite sa, že ste vyčistili okolie miesta na montáž produkt, aby ste k montáži mali ľahký prístup.

- Uistite sa, že máte najmenej 5 cm medzi podkladom produkt a okrajom základov.

A

Zaistite výrobok pomocou vhodných skrutiek a hmoždínok na pevnom základe podľa vlastného výberu. (Nie sú v balení)

B

Výrobok zaistite použitím vhodných kolíkov do zeme. (Nie sú v balení)

SL

Priprava terena!

- Pred postavitvijo izdelek je treba osnovno površino ali podlago zravnat!
- Zaradi pravilnosti izvedbe je treba izdelek postaviti na trdno in ravno površino. Za osnovo priporočamo betonsko ali leseno podlago.

* Priporočamo, da preverite omejitve ali zahteve glede gradnje lop na vašem območju. Poleg tega vam svetujemo, da preverite, ali je potrebna kakršna koli priglasitev ali dovoljenje, preden izdelek zgradite.

- S površine odstranite vse ovire
- Izravnajte površino tal

* Spodaj si oglejte 2 priporočeni možnosti

A Trdna osnova (Beton / Betonska stena / Prešan les / Lesen podest) (risba)

B Površina tal (trava / zemlja) (risba)

- Da bi med montažo omogočili enostaven dostop, poskrbite za čisto površino okrog mesta montaže.

- Zagotovite vsaj 5 centimetrov razdalje med osnovo izdelek in robom vaših temeljev.

A

Izdelek pritrdite na trdno podlago po vaši izbiri s primernimi vijaki in vtiči ali zidnimi sidri. (niso priloženi)

B

Izdelek pritrdite na površino tal s pomočjo ustreznih klinov. (niso priloženi)

HU

Építési terület előkészítése!

- Az alpnak simának és vízszintesnek kell lennie, s elő kell készíteni a felépítése a termék!
- A termék szilárd felületre kell felépíteni annak érdekében, hogy funkcióját megfelelően lássa el. Javasoljuk, hogy a beton vagy a hajópadló alapot használjon.

* Javasoljuk, hogy ellenőrizze, hogy milyen korlátozások vagy előírások vannak érvényben lakóhelyén a termék építésére vonatkozóan. Ezenkívül azt tanácsoljuk, hogy ellenőrizze, nincs-e szűkség valamilyen formanyomtatvány, vagy engedély benyújtására a építése a termék.

- Minden akadályt távolítson el a talajfelszínről
- A talaj legyen vízszintes

* Alább megtalál 2 általunk javasolt opció!

A Szilárd alap (beton / beton fal / nyomáskezelt fa / fa padló) (rajz)

B Talajfelület (fű / föld) (rajz)

- Annak érdekében, hogy könnyű legyen az összeszerelés, győződjön meg róla, hogy a termék körüli területen sincsenek akadályozó tényezők.

- Győződjön meg róla, hogy legalább 5 cm (2 hüvelyk) között van a termék alapja és az alapítvány széle között.

A

A terméket csavarokkal, tiplikkel vagy falazóhorgokkal rögzítse a választott szilárd alapra. (Nincs mellékelve)

B

Megfelelő csapokkal rögzítse a terméket a talaj felszínéhez. (Nincs mellékelve)

ET

Koha ettevalmistamine

- Alus või vundament peab olema tasandatud ja ette valmistatud enne toodet paigaldamist!
- Toodet tuleb ehitada tugevale tasapinnale, et see õigesti toimida saaks. Me soovime alusena kasutada betoon- või puittekki.

* Me soovime kontrollida piiranguid või reeglistikke, sella toote ehitamiseks piirkonnas reguleerivad. Lisaks soovime teil kontrollida, kas peate enne toodet ehitamist täitma vorme või on tarvis lube.

- Puhastage pind lahtistest takistustest
- Tasandage maapind

* Tutvuge alljärgnevalt 2 soovitusliku valikuga

A Tahke alus (Betooni / Betooni sein / Rõhuga töödeldud puit/ Puidust tekk) (joonis)

B Maapind (rohi / muld) (joonis)

- Võimaldamaks kergelt ligipääsu kokkupaneku ajal, veenduge, et puhastate toodet ümbritseva kokkupanekuala pinna.

- Veenduge, et on vähemalt 5 cm ruumi toodet aluspinna ja vundamenti ääre vahel.

A

Kinnitage toode enda valitud tahkele alusele, kasutades sobivaid kruvisid ja pistikuid või müüritise ankruid. (Ei kuulu komplekti)

B

Kinnitage toode maapinnale kasutades sobivaid juhtposte. (Ei kuulu komplekti)

PL

Przygotowanie miejsca budowy!

- Przed montażem produkt podłoże lub fundamenty należy wyrównać, wypoziomować i przygotować.
- Aby zapewnić prawidłowe funkcjonowanie, ten produkt musi być zbudowana na solidnej poziomej powierzchni. Zalecamy zastosowanie betonowej lub drewnianej podstawy.

* Zalecamy sprawdzenie ograniczeń lub umów dotyczących budowy ten produkt w okolicy. Ponadto zalecamy sprawdzić, czy należy dostarczyć jakiegokolwiek formularze lub zgody przed rozpoczęciem budowy produkt.

- Oczyszczyć powierzchnię z przeszkód
- Wyrównać podłoże

* Patrz poniżej 2 zalecane opcje

A Podstawa stała (beton / ściana betonowa / ściana betonowa / drewno impregnowane ciśnieniowo) / Pokład drewniany) (rysunek)

B Nawierzchnia gruntowa (trawa / gleba) (rysunek)

- A by umożliwić łatwy dostęp podczas montażu, należy oczyścić powierzchnię wokół miejsca montażu produkt.

- Pomiędzy podstawą produkt a krawędzią fundamentu należy zapewnić co najmniej 5 cm.

A

Zamocuj produkt do podstawy stałej za pomocą odpowiednich wkrętów i zaślepek lun kotew murarskich. (Nie są dostarczane)

B

Zabezpiecz produkt na powierzchni ziemi przy użyciu odpowiednich kołków. (Nie są dostarczane)

RU

Подготовка площадки!

- Основание или фундамент должны быть собраны, выровнены и полностью подготовлены к установке продукт!
- Продукт предназначен для установки на твердой и ровной поверхности. Мы рекомендуем бетонное/деревянное основание.

✳ Рекомендуем перед установкой ознакомиться с локальными правилами и ограничениями по строительству продукт. Рекомендуем также предварительно выяснить, требуется ли специальное разрешение на установку такого рода сооружений.

- Очистить площадку от неустойчивых элементов и препятствий.
- Заровнять поверхность.

✳ См. ниже 2 рекомендуемых варианта

A Твердая основа (Бетон / бетонная стена / Обработанная под давлением древесина / деревянная палуба) (чертеж)**B Поверхность земли (трава / почва) (рисунок)**

- Для облегчения рабочего процесса рекомендуется очистить территорию вокруг места сборки.
- Убедитесь в наличии минимального расстояния в 5 см (2 дюйма) между опорами конструкции и краем основания.

A

Закрепите продукт на прочной основе по вашему выбору используя подходящие винты и заглушки или якоря кладки. (Не поставляется)

B

Закрепите продукт на поверхности земли используя подходящие колышки. (Не поставляется)

CS

Příprava místa!

- Báze nebo základna musí být zploštělá, vyrovnaná a opravená před vybudováním produkt!
- Pro správnou funkci, produkt musí být postavené na pevném povrchu. Doporučujeme používat beton nebo dřevo jako bázi.

✳ Doporučujeme zkontrolovat omezení nebo závazky týkající se výstavby produkt ve vaší oblasti. Také vám doporučujeme zkontrolovat před výstavbou produkt zda je potřebné vyplnit nějaké formuláře nebo poskytnout případné povolení.

- Vyčistěte povrch od nánosů
- Vyrovnejte povrch země

✳ Viz níže 2 doporučené možnosti

A Pevný podklad (beton / betonová zeď / lisované dřevo / dřevěná palubka) (výkres)**B Zemní podklad (tráva / půda) (výkres)**

- Abyste během montáže měli snadný přístup, ujistěte se, že je vyčistěný povrch kolem místa montáže.
- Ujistěte se, že je alespoň 5 cm (2 palce) mezi základnou chaty a okrajem základny.

A

Přípevněte výrobek k pevnému podkladu dle vlastního volby pomocí vhodných šroubů a kotev. (Není součástí dodávky)

B

Ukotvěte výrobek do země pomocí vhodných kolíků. (Není součástí dodávky)

LT

Vietnes sagatavošana!

- Pirms produkta uzstādīšanas atbalsta punktam vai pamatam ir jābūt nolīdzinātam, izgludinātam un sagatavotam!
- Lai veiktu pareizi, produkts ir jābūt uzceltai uz cietas virsmas. Mēs iesakām izmantot betonu vai koka klāju kā atbalsta punktu.

✳ Mēs iesakām pārbaudīt ierobežojumus vai nolīguma noteikumus šī produkta būvniecībai celšanai jūsu apgabalā. Turklāt mēs iesakām pārbaudīt, vai jums ir jāiesniedz jebkādas veidlapas, vai, ja pirms produkta celtniecības, ir nepieciešama kāda atļauja.

- Attīriet virsmu no šķersliem
- Nogludiniet zemes virsmu

✳ Skatiet zemāk 2 ieteiktās iespējas

A Stingra virsma (betons / betona siena / apstrādāta koksne / koka klājs) (zīmējums)**B Zemes virsma (zāle / grunts) (rāsējums)**

- Lai nodrošinātu ērtu piekļuvi montāžas laikā, pārliecinieties, vai virsma ir attīrīta virs produkta montāžas vietas.
- Pārliecinieties, lai starp produkta atbalsta punktu un pamatnes malu ir vismaz 5 cm (2 collas).

A

Nostipriniet produktu pie izvēlētas pamatnes, izmantojot piemērotas skrūves un aizbāžņus vai mūra enkurskrūves. (Nav iekļautas komplektā)

B

Nostipriniet produktu uz grunts virsmas, izmantojot piemērotas tapas. (Nav iekļautas komplektā)

IMPORTANT

Please read these instructions carefully before you start to assemble this product .

Please carry out the steps in the order set out in these instructions.

Keep these instructions in a safe place for future reference.

Safety Advice

- For safety purposes we strongly recommend the product to be assembled by at least two people.
- Some parts may have sharp edges. Please be careful when handling components. Always wear gloves, eye protection, and long sleeves when assembling or performing any maintenance on your product.
- Do not attempt to assemble the product in windy or wet conditions.
- Do not attempt to assemble the product if you are tired, have taken drugs, medications or alcohol, or if you are prone to dizzy spells.
- Dispose of all plastic bags safely – keep them away from children’s reach.
- Keep children away from the assembly area.
- When using a stepladder or power tools, make sure that you are following the manufacturer’s safety advice.
- Keep roof and gutters clear of snow, dirt & leaves.
- Heavy snow load on the roof can make it unsafe to stand below or nearby.
- Do not lean against or push the product during construction.
- Hot items such as recently used grills, blowtorches etc. must not be stored inside the product.
- Heavy or sharp articles should not be leaned against the wall panels.
- Make Sure there are no hidden pipes or cables in the ground before inserting the pegs (not supplied)
- Do not touch overhead power cables with the aluminum profiles.
- If color was scratched during assembly it can be fixed.
- **Note:** This product must be anchored on to a leveled surface and solid foundation to ensure its stability.
Make sure that screws and anchors are compatible with foundation type. Make sure that there are no obstructions between the assembly area and the final position.

Cleaning Instructions

- In order to clean the product, use a mild detergent solution and rinse with cold clean water.
- Do not use acetone, abrasive cleaners, or other special detergents to clean the panels.
- Clean the product once assembly is complete.

Before Assembly

- Choose your site carefully before beginning assembly.
- The ground surface must be perfectly flat and leveled.
- Choose a sunny area, away from overhanging trees.
- Do not position your product in an area exposed to excessive winds.
- The product must be positioned and fixed onto a flat leveled surface.
We strongly recommend to secure this product directly onto a solid foundation.
Use the pre-drilled holes in the steel base.
- Complete site preparation before unpacking parts and beginning assembly.
- Sort the parts and check against the content parts list.
- Parts should be laid out close at hand. Keep all small parts (screws etc.) in a bowl so they do not get lost.
- Please consult your local authorities if any permits are required prior to constructing the product.

During Assembly

- Make sure the base is square by measuring the diagonals and level by using a spirit level.
- You may use silicone lubricant spray in order to help you slide the panels into the profiles.
- Do not spray the polycarbonate panels.
- Use a rubber mallet if necessary.
- All panels with the stamped words "THIS SIDE OUT" must be facing out to create full UV protection. Remove plastic sticker as panels are locked in place.

When encountering the information icon, please refer to the relevant assembly step for additional comments and assistance.

This icon indicates that the installer should be inside the product.

This icon indicates that the installer should be outside the product.

Attention

- During assembly use a soft surface below the parts to avoid scratches and damages.

Steps

Step 10: Make sure the base is square by measuring the diagonals and level by using a spirit level.

Steps 14: **Part 7180** is used for assembly assistance.

Steps 29: After installing the gutter, it is mandatory to remove and discard (**Part 7180**).

Steps 50+51: Please repeat **steps 46-48**.

Step 61: Please add silicone on the outer area of **parts 7581 & 7582** as illustrated.

Step 82: In case the window is not properly aligned, loosen the screws, adjust the profile and re-tighten the screws.

Step 100: Make sure the cable is threaded in the hole (**#7327**) and does not interfere with the window' opening.

Step 101: Anchor the greenhouse to the ground by using **part 7331** for hard surface or **part 7336** for soft surface.

Step 103: Stretch the cable by using part **7332**.

* Please tighten all screws when completing assembly.

- Screws 411 and nuts 412 & 466 are used throughout the assembly process.
- Screws 411 are to be assembled from the outside and nuts 412 & 466 from the inside of the greenhouse.
- If not specified otherwise, do not fasten screws and nuts (411, 412 & 466) more than 2-3 turns only. Do not tighten them until completion of the panels' assembly. These 2 icons indicate if screws' tightening is required or not.
- However, in some steps, temporary tightening of a few screws may be needed to prevent a profile from falling.

Note: Firmly connect the product to a level surface immediately after completion of the assembly.

Anchoring this product to the ground is essential to its stability and rigidity. It is required to complete this stage in order for your warranty to be valid.

IMPORTANT

Veuillez lire attentivement ces instructions avant de débiter le montage du produit.
Veuillez suivre les étapes dans l'ordre indiqué dans ces instructions.
Conservez ces instructions en lieu sûr pour référence ultérieure.

Consignes de sécurité

- Pour des raisons de sécurité, nous recommandons vivement que le produit soit assemblé par au moins deux personnes.
- Certaines pièces présentent des bords métalliques. Veuillez manipuler les composants avec précaution. Portez des gants, des chaussures et des lunettes de sécurité tout au long de l'assemblage.
- N'essayez pas d'assembler le produit en cas de vent ou de conditions humides.
- Jetez précautionneusement tous les sacs plastiques – tenez-les hors de portée des enfants.
- Tenez les enfants à distance de la zone de montage.
- N'essayez pas d'assembler le produit si vous êtes fatigué, avez pris des médicaments ou consommé de l'alcool, ou si vous êtes enclin aux vertiges.
- Si vous utilisez un escabeau ou des outils électriques, assurez-vous de respecter les consignes de sécurité du fabricant.
- Éliminez la neige, la terre et les feuilles du toit et des gouttières.
- Une lourde charge de neige sur le toit peut rendre dangereux le fait de se tenir debout en dessous ou à proximité.
- Ne vous appuyez pas contre le produit ou ne le poussez pas pendant sa construction.
- Les objets lourds ou coupants ne doivent pas être appuyés contre les panneaux muraux.
- Assurez-vous qu'il n'y a aucun tuyau ou câble caché dans le sol avant d'insérer les piquets (non fournis).
- Ne touchez pas les câbles électriques aériens avec des profilés en aluminium.
- Si la couleur a été rayée lors du montage, elle peut être corrigée.
- Remarque : ce produit doit être ancré sur une surface nivelée et une base solide pour assurer sa stabilité.
Assurez-vous que les vis et les ancrages sont compatibles avec les fondations.

Instructions de nettoyage

- Pour nettoyer le produit, utilisez une solution détergente douce et rincez à l'eau claire froide.
- N'utilisez pas d'acétone, de nettoyeurs abrasifs, ou autres détergents spéciaux pour nettoyer les panneaux.
- Nettoyez le produit une fois le montage terminé.

Avant l'Assemblée

- Choisissez votre site avec soin avant de commencer l'assemblage.
- La surface du sol doit être parfaitement plate et nivelée.
- Choisissez un endroit ensoleillé, loin des arbres en surplomb.
- Ne placez pas votre produit dans une zone exposée à des vents excessifs.
- Le produit doit être positionné et fixé sur une surface plate et nivelée. Nous vous recommandons fortement de fixer ce produit directement sur une base solide. Utilisez les trous pré-perçés dans la base en acier.
- Terminez la préparation du site avant de déballer les pièces et de commencer l'assemblage.
- Le produit doit être positionné et fixé sur une surface plate et nivelée. Nous vous recommandons fortement de fixer ce produit directement sur une base solide. Utilisez les trous pré-perçés dans la base en acier.
- Ordonnez les pièces et vérifiez-les avec la liste des pièces contenues.
- Les pièces doivent être disposées à portée de main. Rangez toutes les petites pièces (vis, etc.) dans un bol pour ne pas les égarer.
- Veuillez consulter les autorités locales au cas où des permis sont nécessaires pour la construction du produit.

Pendant l'assemblage

- Assurez-vous que la base soit bien carrée en mesurant les diagonales et le nivelage à l'aide d'un niveau à bulle.
- Vous pouvez utiliser un spray de silicone lubrifiant afin de vous aider à glisser les panneaux dans les profils.
- Ne pulvérisez pas les panneaux en polycarbonate.
- Utilisez un maillet en caoutchouc si nécessaire.
- Tous les panneaux estampillés "THIS SIDE OUT" doivent être orientés vers l'extérieur pour assurer une protection UV intégrale. Retirez les stickers en plastique alors que les panneaux sont verrouillés en place.

 Lorsque vous rencontrez l'icône Informations, veuillez vous référer à l'étape d'assemblage pertinente afin d'obtenir davantage de commentaires et d'aide.

 Cette icône indique que l'installateur doit être à l'intérieur du produit

Cette icône indique que l'installateur doit être en dehors du produit.

Atención

- Pendant le montage, placez une surface souple sous les pièces pour éviter de les érafler ou de les endommager.

Étapes

Étape 10 : Assurez-vous que la base soit bien carrée en mesurant les diagonales et le nivelage à l'aide d'un niveau à bulle. Connectez fermement la serre à sa position finale immédiatement après l'achèvement du montage.

Étape 14: Partie 7180 est utilisé pour l'assistance de montage.

Étape 29: Suppression de la partie 7180 et le jeter.

Étape 50+51: Veuillez répéter les **étapes 46-48**.

Étape 61: Veuillez ajouter du silicone sur la zone extérieure des pièces numéro **7581 et 7582** comme illustré.

Étape 82: Dans le cas où la fenêtre ne ferme pas correctement, veuillez relâcher les vis, ajuster le profil, et de nouveau resserrer les vis.

Étape 100: Assurer que le câble est enfilé dans le trou (**7329**) et ne gêne pas l'ouverture de la fenêtre

Étape 101: Fixer la Serre au sol en utilisant **pièce 7331** à surface dure et **pièce 7336** au surface molle.

Étape 103: Tendez le câble en utilisant **pièce 7332**

* Serrez toutes les vis une fois l'assemblage terminé.

Les vis 411 et écrous 412 & 466 servent tout au long de la procédure.

- Les vis 411 se placent à l'extérieur et les écrous 412 & 466 à l'intérieur de la serre.
- Ne serrez les vis et écrous (411, 412 & 466) que de 2 à 3 tours, pas plus. Ne les serrez pas tant que l'assemblage n'est pas complètement terminé, sauf indication contraire.
- Cependant, la réalisation de certaines étapes peut nécessiter le serrage provisoire de quelques vis pour empêcher un profilé de tomber en attendant qu'il soit entièrement intégré à l'ensemble de la structure dans les étapes suivantes.

Remarque: Cette étape d'ancrage du produit au sol est essentielle à sa stabilité et à sa rigidité, elle est de plus nécessaire pour assurer la validité de votre garantie.

Connectez fermement le produit à une surface nivelée immédiatement après la fin de l'assemblage.

WICHTIG

Bitte lesen Sie die vorliegenden Anweisungen sorgfältig durch, bevor Sie mit dem Zusammenbau dieses Schuppens beginnen. Bitte führen Sie die Schritte in der in der vorliegenden Anleitung aufgeführten Reihenfolge aus. Bewahren Sie die Anleitung für eine spätere Bezugnahme an einem sicheren Ort auf.

Pflege- und Sicherheitshinweise

- Aus Sicherheitsgründen empfehlen wir, das Produkt nicht alleine zusammenzubauen.
- Einige Teile besitzen Kanten aus Metall. Seien Sie vorsichtig, wenn Sie diese Teile zusammenbauen. Tragen Sie während des Aufbaus immer Handschuhe, Schuhe und Schutzbrillen.
- Versuchen Sie nicht, den Produkt bei windigen oder feuchten Wetterverhältnissen zusammenzubauen.
- Entsorgen Sie die Plastikbeutel vorschriftsgemäss – und achten Sie darauf, dass sie nicht in Reichweite von Kindern kommen.
- Halten Sie Kinder während des Aufbaus vom Produkt fern.
- Versuchen Sie nicht, den Produkt aufzubauen, wenn Sie müde sind, Drogen, Medikamente oder Alkohol zu sich genommen haben oder zu Schwindelanfällen neigen.
- Wenn Sie eine Stufenleiter oder Elektrowerkzeuge benutzen, achten Sie darauf, die Sicherheitshinweise des Herstellers zu befolgen.
- Halten Sie das Dach und die Dachrinnen frei von Schnee, Dreck und Blättern.
- Grosse Mengen von Schnee auf dem Dach können den Produkt beschädigen und dazu führen, dass es nicht mehr sicher ist, unter oder neben ihm zu stehen.
- Während der des Zusammenbaus, sich nicht an das Produkt anlehnen oder dies schieben.
- Keine heiße Gegenstände wie z.B. kürzlich benutzte Grills, Lötlampen etc. in den produkt stellen.
- Schwere oder scharfe Gegenstände sollten nicht an die Wandpaneele gelehnt werden.
- Stellen Sie sicher, dass sich keine versteckten Rohre oder Kabel im Boden befinden, bevor Sie die Bolzen einsetzen (nicht im Lieferumfang enthalten).
- Berühren Sie keine freiliegende Leitungen mit den Aluminiumprofilen.
- Wenn die Farbe bei der Montage zerkratzt wurde, so kann dies in Ordnung gebracht werden.
- **Hinweis:** Dieses Produkt muss auf einer ebenen Fläche und auf einem festen Untergrund verankert werden, damit es nicht beschädigt wird und dessen Stabilität zu gewährleistet wird. Vergewissern Sie sich, dass die Schrauben und Dübel mit dem Fundament kompatibel sind. Achten Sie darauf, dass sich keine Hindernisse zwischen dem Montagebereich und dem endgültigen Platz des Produktes befinden.

Reinigungsanweisungen

- Säubern Sie das Produkt nach dem Aufbau.
- Um die produkt zu reinigen, verwenden Sie ein mildes Reinigungsmittel und spülen Sie es mit kaltem, sauberem Wasser ab.
- Verwenden Sie für die Reinigung der Paneele kein Azeton, keine Scheuermittel oder andere spezielle Reinigungsmittel.

Bevor Sie beginnen

- Wählen Sie Ihren Standort sorgfältig, bevor Sie mit dem Aufbau beginnen.
- Die Bodenfläche muss absolut Flach und eben sein.
- Wählen Sie eine sonnige Stelle, abseits von überhängenden Bäumen.
- Stellen Sie Ihr Produkt nicht in einem Bereich auf, der übermäßigen Winden ausgesetzt ist.
- Das Produkt muss positioniert und auf einer flachen und ebenen Fläche fixiert werden. Wir empfehlen Ihnen, dieses Produkt direkt auf einem stabilen Fundament zu befestigen. Verwenden Sie die vorgebohrten Löcher im Stahlfuß.
- Vor dem Auspacken der Teile und dem Beginn der Montage muss jene Stelle, wo Sie das Produkt aufbauen vorbereitet werden.
- Der Untergrund muss vollkommen flach und eben sein und einen festen Untergrund haben, wie Beton, Asphalt, Fliesen etc.
- Sortieren Sie die Teile und prüfen, ob alle Teile, die auf der Inhaltsliste stehen enthalten sind. Die Teile sollten in Ihrer unmittelbarer Nähe liegen.
- Bewahren Sie alle Kleinteile (Schrauben etc.) in einer Schüssel auf damit sie nicht verloren gehen.

Während der Montage

- Vergewissern Sie sich, dass die Basis sowohl quadratisch als auch waagrecht ist, indem Sie die Diagonalen messen und die Basis mit einer Wasserwaage prüfen.
- Um das Einführen der einzelnen Platten in die Profile zu vereinfachen, können Sie Silikon-Gleitspray verwenden.
- Besprühen Sie nicht die Polycarbonat-Platten.
- Nehmen Sie – falls nötig – einen Gummihammer zur Hilfe.
- Alle mit den Worten "THIS SIDE OUT" versehenen Platten müssen nach außen zeigen, damit der volle UV-Schutz garantiert werden kann.

Beim Aufbau wird Ihnen das Informationssymbol begegnen. Für zusätzliche Kommentare und Unterstützung beziehen Sie sich bitte auf die entsprechende Aufbaustufe.

Dieses Symbol zeigt an, dass sich die installierende Person sich im Inneren des Produktes befinden sollte

Dieses Symbol zeigt an, dass die installierende Person sich außerhalb des Produktes befinden sollte.

Achtung:

- Legen sie während des Aufbaus eine weiche Unterlage unter die einzelnen Teile, um Kratzer und Schäden zu vermeiden.

Schritte

Schritt 10: Vergewissern Sie sich, dass die Basis sowohl quadratisch als auch waagrecht ist, indem Sie die Diagonalen messen und die Basis mit einer Wasserwaage prüfen.

Schritt 14: Teil 7180 ist für die Montage Hilfe verwendet.

Schritt 29: Entfernen Sie **Teil 7180** und entsorgen.

Schritt 50+51: Bitte wiederholen Sie die **Schritte 46-48**.

Schritt 61: Bitte tragen Sie Silikon auf den äußeren Bereich der **Teile 7581 & 7582**, wie abgebildet, auf.

Schritt 82: Falls das Fenster nicht ordnungsgemäß verschlossen ist, bitte lösen Sie die Schrauben, Stellen Sie die Profile Zu und Befestigen Sie wieder die Schrauben

Schritt 100: Stellen Sie sicher, dass das Kabel vorsichtig in das Loch geschoben wird (**7327**) damit es Sie nicht beim Öffnen und Schließen des Fensters behindert

Schritt 101: Verankern Sie das Gewächshaus am Boden, indem Sie das **Teil 7331** für festen Untergrund verwenden oder indem Sie das **Teil 7336** für weichen Untergrund verwenden.

Schritt 103: Benutzen Sie das **Teil 7332** um das Seil zu spannen.

* Ziehen Sie alle Schrauben fest, sobald die Montage beendet ist.

- Schrauben 411 and Muttern 412 & 466 werden während des gesamten Aufbauvorgangs benutzt.
- Schrauben 411 werden von der Aussenseite des Gewächshauses eingesetzt und Muttern 412 von der Innenseite.
- Ziehen Sie die Schrauben und Muttern (411 und 412 & 466) nicht mit mehr als 2 – 3 Umdrehungen fest. Ziehen Sie sie erst nach Beendigung der Verglasung weiter fest, falls dies nicht ausdrücklich anders festgelegt ist.
- Bei einigen Schritten müssen allerdings eventuell ein paar Schrauben vorübergehend angezogen werden, um zu vermeiden dass ein Profil fällt.

Note: Die Verankerung dieses Produkts im Untergrund ist wesentlich für seine Stabilität und Festigkeit. Sie ist unablässlich, um diesen Arbeitsschritt zu beenden, damit Ihre Garantie gültig bleibt. Das Produkt unmittelbar nach Fertigstellung fest an einer flachen und ebenen Fläche anbringen.

IMPORTANTE

Le rogamos lea con atención las siguientes instrucciones antes de empezar a montar este producto. Siga los distintos pasos en el mismo orden de las instrucciones. Guarde las instrucciones en un lugar seguro para poder consultarlas en el futuro.

Consejos de cuidado y seguridad

- Por motivos de seguridad, recomendamos encarecidamente que el producto sea montado al menos por dos personas.
- Algunas piezas pueden tener bordes afilados. Por favor, tenga cuidado al manipular los componentes. Lleve siempre guantes, protección ocular y mangas largas al montar o realizar cualquier mantenimiento de su producto.
- No intente montar el producto en condiciones de viento o humedad.
- Tire todas las bolsas de plástico con seguridad; manténgalas fuera del alcance de los niños pequeños.
- Mantenga a los niños lejos del área de montaje.
- No intente montar el producto si está cansado, ha tomado drogas, medicamentos o alcohol o si es propenso a ataques de mareo.
- Cuando utilice una escalera de mano o herramientas eléctricas, asegúrese de seguir los consejos de seguridad del fabricante.
- Mantenga el tejado y el canalón sin nieve, suciedad ni hojas.
- No es seguro pararse debajo o cerca cuando hay gran cantidad de nieve sobre el techo.
- No se apoye ni empuje el producto durante la construcción.
- Artículos calientes, como parrillas recientemente usadas, sopletes, etc. no deben ser almacenados dentro del producto.
- Los artículos pesados o afilados no deben apoyarse contra los paneles de la pared.
- Asegúrese de que no haya tuberías o cables ocultos en el suelo antes de insertar las estacas (no suministradas).
- No toque cables eléctricos en altura con los perfiles de aluminio.
- Si se rayó el acabado de color durante el montaje, el mismo puede ser arreglado.
- **Nota:** Este producto debe estar anclado a una superficie nivelada y a una base sólida. Asegúrese de que los tornillos y los anclajes sean compatibles con el tipo de base. Asegúrese de que no haya obstrucciones entre el área de ensamblaje y la posición final.

Instrucciones de limpieza

- Limpie el producto una vez terminado el montaje.
- Cuando necesite limpiar su producto, use una solución de detergente suave y aclárelo con agua limpia fría.
- No utilice acetona, limpiadores abrasivos ni otros detergentes especiales para limpiar los paneles.

Antes de empezar:

- Elija su sitio cuidadosamente antes del ensamblaje inicial.
- La superficie del terreno debe ser perfectamente plana y estar nivelada.
- Elija un área soleada, lejos de árboles que puedan cubrir la estructura.
- No coloque su producto en un área expuesta a vientos excesivos.
- El producto debe colocarse y fijarse sobre una superficie plana y nivelada. Recomendamos encarecidamente asegurar este producto directamente sobre una base sólida. Utilice los orificios pre-perforados en la base de acero.
- Complete la preparación del sitio antes de desempacar las piezas y comenzar el ensamblaje.
- Las partes deben disponerse al alcance de la mano.
- Mantenga todas las piezas pequeñas (tornillos, etc.) en un recipiente para que no se pierdan.
- Consulte las limitaciones, requisitos, permisos y a las autoridades locales para la construcción de este cobertizo de jardín.

Durante la instalación

- Asegúrese de que la base es cuadrada, midiendo las diagonales y el nivel mediante el uso de un nivel de burbuja.
- Es posible utilizar un aerosol lubricante de silicona con el fin de ayudar a deslizar los paneles en los perfiles.
- No pulverice los paneles de policarbonato.
- Utilice un martillo de goma si es necesario.
- Todos los paneles con las palabras estampadas "THIS SIDE OUT" deben estar mirando hacia afuera para crear una protección UV completa. Quite la etiqueta de plástico a medida que bloquee los paneles en su lugar.

Cuando encuentre el ícono de información, por favor lea con cuidado dicho paso con comentarios y asistencia adicionales.

Este ícono indica que el instalador debe estar dentro del producto.

Este ícono indica que el instalador debe estar fuera del producto.

Atención

- Durante el montaje, ponga algo suave por debajo de las piezas, para evitar que se rayen o estropeen.

Pasos

Paso 10: Cerciórese de que la base sea cuadrada midiendo las diagonales y el nivel usando un nivel de burbuja.

Paso 14: Parte 7180 se utiliza para la asistencia en el armado.

Paso 29: Desmontar la **parte 7180** y vuelva a montarlo

Pasos 50+51: Por favor, repita los **pasos 46-48**.

Paso 61: Por favor, añada silicona en el área externa de las piezas **7581 y 7582** como se ilustra.

Paso 82: En caso de que la ventana no se cierra correctamente, afloje los tornillos, ajustar el perfil y apretar el tornillo.

Paso 100: Asegúrese de que el cable se enrosca en el agujero (**7327**) y no interfiere con la apertura de la ventana

Paso 101: Fije el invernadero al suelo mediante el uso de la **pieza 7331** para superficie dura o **pieza 7336** para superficies blandas

Paso 103: Estire el cable mediante el uso de **pieza 7332**

* Apriete todos los tornillos una vez esté completado el montaje.

- Los tornillos 411 y las tuercas 412 & 466 son usados durante todo el proceso de montaje.
- Los tornillos 411 deben ser montados desde el exterior y las tuercas 412 & 466 desde el interior del invernadero.
- No apriete los tornillos y tuercas (411, 412 & 466) más de 23- vueltas. No los apriete hasta terminar el montaje de los paneles, a menos que orientado de otra manera.
- Sin embargo, en algún paso puede ser necesario apretar de forma temporal algunos tornillos para evitar que se caiga un perfil.

Note: Inmediatamente después de completar el ensamblaje, vincule firmemente el producto a una superficie nivelada.

Ancle firmemente el producto a una superficie nivelada inmediatamente después de finalizar el ensamblaje.

VIKTIGT

Var vänlig läs instruktionerna noggrant innan du börjar montera produkten.

Vänligen utför instruktionerna enligt de steg som angivits i dessa instruktioner.

Spara dessa instruktioner på ett säkert ställe för framtida referens.

Aktsamhets - och säkerhetsråd

- Av säkerhetsskäl rekommenderar vi starkt att produkten monteras av minst två personer.
- Vissa delar har metallkanter. Var försiktig vid hanteringen av de olika delarna. Använd alltid handskar, skor och säkerhetsglasögon under monteringen.
- Försök inte montera ihop Gazebo i blåsigt eller vått väderförhållande.
- Försök inte montera Gazebo om du är trött, tagit droger, mediciner eller alkohol, eller om du är benägen att bli yr.
- Gör dig av med alla plastpåsar på ett säkert sätt – håll dem borta från barn.
- Håll barnen borta från monteringsområdet.
- När du använder en stege eller motordrivna verktyg, säkerställ att du följer tillverkarens säkerhetsråd.
- Håll tak och takrännor rena från snö, smuts och löv.
- Ett tungt snölager kan göra det farligt att stå under, eller i närheten av taket.
- Luta eller tryck inte på växthuset under montering.
- Heta föremål som en nyligen använd grill, blåslampa eller dyligt får inte förvaras i produkt.
- Tunga föremål bör inte lutas mot stolparna.
- Försäkra att det inte finns några dolda rör eller kablar i marken innan du slår ner metallfästena för att förankra produkt. (ej levererad)
- Var noga med att inte komma i kontakt med elkablar då metallprofiler hanteras.
- Om färgen repades under montering kan den fixas.
- **Obs. :** Denna produkt måste förankras på en plan yta och en fast grund för att säkra dess stabilitet. Se till att skruvar och ankare är lämpliga för typen av grund. Se även till att det inte finns hinder mellan monteringsområdet och den slutliga positionen.

Rengöringsinstruktioner

- Vid rengöring av produkt, använd ett mildt rengöringsmedel och skölj med kallt rent vatten.
- Använd inte aceton, rengöringsmedel innehållande slipmedel, eller andra specialmedel för att rengöra panelerna.
- Gör ren produkten när ihopsättningen är klar.

Före montering

- Välj plats noggrant innan du påbörjar monteringen.
- Markytan måste vara helt platt och jämn och ha en fast bas såsom betong, asfalt, däck etc.
- Välj en solig plats utan överhängande träd.
- Välj omsorgsfullt platsen för produkt så att det inte påfrestas av kraftig vind eller extra snö.
- produkt måste placeras på en fast och plant underlag. Vi rekommenderar absolut att detta produkt säkras direkt på en solid cementgrund. När detta görs bör man använda de förborrade hålen i metallramen.
- Förbered byggplatsen klart, innan du packar upp delar och påbörjar montering.
- Sortera delarna och kontrollera mot komponentlistan.
- Delarna bör läggas ut nära dig. Ha alla små delar (skruvar etc.) i en skål så att de inte försvinner.
- Kontakta dina lokala myndigheter hurvida tillstånd krävs innan byggnation av produkten.

Under montering

- Se till att grunden är jämnt fyrkantig genom att mäta diagonaler, och använd vattenpass till att försäkra en plan nivå.
- Du kan använda siliconsprej för panelerna lättare skall glida in i profilerna.
- Spreja inte på polycarbonat-panelerna.
- Använd en gummiklubba om nödvändigt.
- Alla paneler stämplade med orden "THIS SIDE OUT" måste vändas utåt för att skapa ett fullt UV-skydd. Avlägsna klistermärken allteftersom panelerna är låsta på plats.

När du ser en informationsikon så refererar den till det relevanta monteringsmomentet för fler förklaringar och assistans.

Denna ikon anger att installatören bör befinna sig inne i produkten.

Denna ikon anger att installatören bör befinna sig utanför produkten.

Attention

- Det är rekommenderat att använda en kartong eller annat mjukt material under det nedsänkta hörnet för att undvika repor och avskrapning av färg.
- Vi rekommenderar absolut att denna produkt säkras direkt på en solid cementgrund. När detta görs bör man använda de förborrade hålen i metallramen.

Steg

Steg 10: HSe till att basen är vinkelrätt placerad genom att mäta diagonalen. Kontrollera att den är vågrätt placerad med ett vattenpass.

Steg 14: Del 7180 används som hjälp vid monteringen.

Steg 29: Efter monteringen av avloppet är det obligatoriskt att avlägsna del **7180** och slänga den.

Steg 50+51: Vänligen upprepa steg **46-48**.

Steg 61: Lägg till silikon på den yttre ytan på del **7581** och **7582** som visat på bilden.

Steg 82: Om fönstret inte stängs ordentligt, lossa skruvarna, justera profilen och dra åt skruvarna.

Steg 100: Se till att kabeln matas genom hålet (**#7327**) och inte hindrar fönstret från att öppnas.

Steg 101: Förankra växthuset i marken med del **#7331** för hård yta eller del **#7336** för mjuk yta.

Steg 103 Sträck kabeln med del **#7332**.

- Drag åt alla skruvar islutet av monteringen.

- Skruv 411 och mutter 412 & 466 används genom hela monteringsprocessen.
- Skruv 411 ska monteras från utsidan och mutter 412 & 466 från växthusets insida.
- Om inte annat anges, dra inte åt skruv och mutter (411, 412 & 466) mer än 2-3 varv. Dra inte åt dem förrän monteringen av panelerna är avslutad. Dessa två ikoner anger om du behöver dra åt skruv eller inte.
- I vissa steg kan emellertid temporär åtdragning av ett par skruvar vara nödvändigt för att förhindra att en profil faller ner.

Note: Sätt fast produkt på ett horisontellt plant underlag efter att monteringen är klar. Förankring av denna produkt på marken är nödvändigt för stabilitet och styvhet. Det är nödvändigt att slutföra det här steget för att din garanti ska gälla.

VIKTIG

Les instruksjonene nøye før du begynner på monteringen av dette produktet. Følg stegene som forklart i instruksjonen. Oppbevar denne instruksjonen på et trygt sted, for fremtidig referanse.

Sikkerhetsråd

- Av sikkerhetsgrunner anbefaler vi sterkt at produktet monteres av minst to personer.
- Noen deler har metallkanter. Vær forsiktig når du håndterer disse delene. Bruk alltid hansker, sko og sikkerhetsbriller ved montering.
- Ikke forsøk å montere produkt om du er trett, er påvirket av alkohol, narkotika eller medisiner, eller om du har lett for å bli svimmel.
- Kvitt deg med all plastposer, på en trygg måte – hold dem borte i fra barns rekkevidde.
- Hold barn borte fra monteringsområdet.
- Sikre at du følger produsentens sikkerhetsråd når du bruker stige eller elektroverktøy.
- Hold tak og takrenner fri for snø, skitt og løv.
- Store snømengder på taket vil gjøre det utrygt å stå under, eller i nærheten.
- Ikke trykk eller vipp på produktet under monteringen.
- Varmt gjenstander som for eksempel brukte griller, blowtorches etc. må ikke lagres inne i produktet.
- Tunge eller skarpe gjenstander må ikke støttes opp mot veggpanelet.
- Kontroller at det ikke ligger skjulte rør eller kabler i bakken før du trykker ned pinnene (ikke levert)
- Pass på at aluminiumsprofilene ikke kommer i kontakt med strømkabler eller ledninger.
- Hvis fargen ble riper under montering, kan den løses.
- **Merk:** Dette produktet må forankres på en jevn overflate med et solid fundament for å sikre stabiliteten. Pass på at skruer og ankre er compatible med fundamentstypen. Pass på at det ikke er noen hindringer mellom monteringsområdet og sluttposisjonen.

Vedlikehold og rengjøring

- Rengjør produktet med mildt rengjøringsmiddel og skyll med kaldt vann.
- Bruk ikke aceton, slipende rengjøringsmidler eller andre kjemikalier på de gjennomsiktige delene.
- Rengjør produktet når monteringen er ferdig.

Før montering

- Velg grunnlaget med omhu før du monterer.
- Produkt må plasseres og festes på et flatt underlag.
- Velg en solrik beliggenhet uten overhengende trær.
- Ikke plasser produktet slik at det utsettes for sterk vind.
- Product må plasseres og festes på et flatt underlag. Vi anbefaler sterkt at dette product plasseres direkte på et betongunderlag. For dette formålet bruker du de forhåndsdrillede hullene i metallbasen.
- Gjør klar plasseringsområdet før du pakker ut deler og begynner monteringen.
- Sorter delene og sjekk dem opp mot delelisten.
- Delene bør legges ut slik at du lett kan nå dem. Hold alle små deler (skruer osv) i en bolle slik at de ikke forsvinner.
- Kontakt lokale myndigheter for å se om du trenger byggetillatelse for å sette opp dette produkt.

Under forsamlingen

- Kontroller at basen er firkantet ved å måle diagonalene og at den er rett ved å bruke et vater.
- Du kan bruke silikonspray for å hjelpe med at panelene sklir inn i profilene.
- Ikke spray paneler laget av polykarbonat.
- Bruk gummihammer hvis nødvendig.
- Alle panelene med de stemplede ordene "THIS SIDE OUT" må vendes ut for å danne fullstendig UV-beskyttelse. Fjern plastfilmen når panelene er festet på plass.

Under monteringen vil du møte på informasjonsikonet, hvor det henvises det til det relevante monteringsstrinnet for flere kommentarer og hjelp.

Dette symbolet indikerer at montøren skal befinne seg på utsiden.

Dette symbolet indikerer at montøren skal befinne seg på innsiden.

Oppmerksomhet

- Det anbefales å bruke kartong eller et annet mykt materiale under det senkede hjørnet for å unngå riper og malingskader.

Steps

Trinn 10: Forsikre deg om at sokkelen er kvadratisk ved å måle diagonalene og nivået ved å bruke et vater.

Trinn 14: Del 7180 brukes kun som assistanse for monteringen.

Trinn 29: Etter at takrennen er installert, er det obligatorisk å fjerne og kaste (**Del 7180**).

Trinn 50 + 51: Gjenta **trinn 46-48**.

Trinn 61: Legg silikon på utsiden av delene **7581 og 7582** som illustrert.

Trinn 82: I tilfelle vinduet ikke er riktig justert: Løsne skruene, juster profilen og stram skruene igjen.

Trinn 100: Forsikre deg om at kabelen er gjenget i hullet (**# 7327**) og ikke forstyrrer vinduets åpning.

Trinn 101: Forankre drivhuset til bakken ved å bruke del **7331** for hard overflate eller del **7336** for myk overflate.

Trinn 103: Strekk ut kabelen ved å bruke del **7332**.

* Stram alle skruer når du er ferdig med monteringen.

Skrue 411 og mutter 412 & 466 brukes på mange steder under monteringen.

- Skrue 411 monteres utenfra og mutter 412 & 466 innenfra.
- Ikke stram til skrue 411 og mutter 412 & 466 mer enn 2-3 omdreininger. Hvis ikke annet angis, skal de ikke strammes før alle paneler er montert.
- Imidlertid kan være nødvendig å midlertidig stramme enkelte skruer for noen av trinnene for å hindre av profilen faller.

Note: Fest produkt godt til et underlag Posisjoner straks etter at monteringen er fullført. Vennligst bemerk: For å sikre produktets stabilitet er det essensielt å forankre produktet i bakken. Det er nødvendig å fullføre dette steget for at garantien skal være gyldig.

TÄRKEÄÄ

Lue ensin huolellisesti nämä ohjeet ennen tuote asentamista ..
Suorita vaiheet järjestyksellisesti esitettyjen ohjeiden mukaan.
Säilytä nämä ohjeet turvassa vastaisuuden varalta

Turvallisuus ohje

- Turvallisuussyistä suosittelemme, että katoksen asentamiseen osallistuu vähintään kaksi henkilöä.
 - Joissain osissa on metallireunat. Ole varovainen kun käsittelet osia. Käytä asennuksen aikana aina suojakäsineitä, jalkineita sekä suojalaseja.
 - Älä suorita asennusta tuulisella tai sateisella säällä.
 - Älä aloita asennusta jos olet väsynyt, nauttinut lääkkeitä tai alkoholia, jos tunnet huimausta tai et muuten kykene asentamiseen.
 - Hävitä kaikki muovisuojat huolella - älä jätä niitä lasten ulottuville.
 - Pidä lapset poissa asennuspaikalta.
 - Kun käytät tikkaita tai sähkötyökaluja noudata aina valmistajan antamia turva- ja käyttöohjeita.
 - Pidä katto ja räystäs puhtaana lumesta, lehdistä ja muusta roskasta.
 - Katon alla, tai ympärillä seisominen voi olla vaarallista jos katon päällä on raskas lumi.
 - Älä työnnä tai nojaa kasvihuoneen rakenteisiin asennusvaiheen aikana.
 - Kuumat tuotteet kuten grillit , polttotyökalut , terassilämmittimet tulee säilöä mualla kuin.
 - Raskaita tai teräviä esineitä ei pidä nojata seinälevyjä vasten.
 - Varmista että maahankiinnitys on turvallista ja ettei maaperässä ole putkia tai sähköjohtoja.
 - Älä kosketa sähköjohtoja tai lähteitä metallisten esineiden kanssa.
 - Jos väri naarmuuntuu asennuksen aikana, se voidaan kiinnittää.
- Huomaa:** Tämä tuote on ankkuroitava tasatulle pinnalle ja kiinteään perustukseen, jotta varmistetaan sen vakaus. Varmista, että ruuvit ja ankkurit ovat yhteensopivia perustustyyppin kanssa. Varmista, että kokoamisalueen ja lopullisen sijoituspaikan välillä ei ole esteitä.

Puhdistusohjeet

- Puhdista tuote miedolla pesuaineliuksella ja huuhtelee puhtaalla vedellä.
- Älä käytä paneelin puhdistukseen asetonia, hankaavia tai muita erikoispuhdistusaineita.
- Puhdista tuote kokoamisen jälkeen.

Ennen kokoamista

- Valitse paikka huolellisesti ennen kokoamista.
- Maan pinnan on oltava täysin tasainen ja suora, ja perustan oltava kiinteä, kuten betoni, asfaltti, puukansi, jne.
- Valitse aurinkoinen paikka, jonka yllä ei roiku oksia.
- Valitse huolella produkt sijainti , siten ettei se ole alttiina kovalle tuulelle tai ylimääräisille lumikuormille.
- Huomaa: Tämä tuote on ankkuroitava tasatulle pinnalle ja kiinteään perustukseen, jotta varmistetaan sen vakaus. Varmista, että ruuvit ja ankkurit ovat yhteensopivia perustustyyppin kanssa. Varmista, että kokoamisalueen ja lopullisen sijoituspaikan välillä ei ole esteitä.
- Tee paikan valmistelut valmiiksi ennen kuin purat osta pakkauksesta ja aloitat kokoamisen.
- Lajittele osat ja tarkasta ohjeen mukainen sisältö.
- Osat on sijoitettava käden ulottuville. Pidä kaikki pienet osat (ruuvit yms.) astiassa, jotta ne eivät pääse hukkumaan.
- Kysy tarvittaessa paikallisten viranomaisten lupaa katoksen pystyttämiseen.

During Assembly

- Varmista, että pohja on neliö mittaamalla ristimitat ja tasaamalla se vesivaa'an avulla.
- Voit käyttää silikonisprayta apuna paneelien liu'uttamisessa profiileihin.
- Älä käytä sprayta polykarbonaattipaneelisiin.
- Käytä tarvittaessa kumivasaraa.
- Kaikki paneelit, joihin on leimattu sanat "THIS SIDE OUT" ("tämä puoli ulospäin") on asetettava ulospäin, jotta syntyy täysi UV-suojaus. Poista muovitarrat, kun paneelit on lukittu paikoilleen.

Kohdattaessasi tietokuvakkeen, katso asiankuuluvaa kokoonpanovaihetta lisäkommentteja ja apua varten.

Tämä kuvake osoittaa, että asentaja pitäisi olla tuotteen ulkopuolella

Tämä kuvake osoittaa, että asentajan pitäisi olla tuotteen sisällä

Huomio:

- Käytä pehmeää alustaa estääksesi naarmut ja vahingot.

Steps

Vaihe 10: Varmista, että sokkeli on neliö mittaamalla pituus kulmasta kulmaan, ja että se on vaakasuorassa käyttämällä vesivaakaa.

Vaihe 14: Part 7180 käytetään kokoonpanoon apuun.

Vaihe 29: Rännin asentamisen jälkeen täytyy osa **7180** irrottaa ja hävittää.

Vaihe 50+51: Toista vaiheet **42-48**.

Vaihe 61: Lisää silikonin osien **7581 & 7582** ulkosiin alueisiin, kuten kuvassa näkyy.

Vaihe 82: Jos ikkuna ei sulkeudu oikein, irroita ruuvit, säädä tukirankaa ja kiristä ruuvit uudelleen.

Vaihe 100: Varmista, että kaapeli kierretään reikään (**#7327**) eikä se häiritse ikkunan avaamista.

Vaihe 101: Ankkuroi kasvihuone maahan kovalle pinnalle tarkoitettulla osalla **#7331** tai pehmeälle pinnalle tarkoitettulla osalla **#7336**.

Vaihe 103: Venytä johtoa osan **#7332** avulla.

* Kiristä kaikki ruuvit asennuksen loppuksi.

- Ruuvit 411 ja mutterit 412 & 466 ovat yleisesti käytössä koko kasvihuoneen osalta.
- Ruuvit 411 asennetaan ulko sisäänpäin ja mutterit 412 & 466 kiristetään sisäpuolelta
- Älä kiristä tiukkaan alkuvaiheessa ruuveja ja muttereita(411,412 & 466) sormitkiristystä enempää.
- Tarvitset ruuvien suomaan säätöväljyyttä levykiinnityksiin asti. Lopussa kaikki liitokset tulee kiristää työkaluilla tiukasti kiinni.
- Joissakin vaiheissa muutaman ruuvin väliaikainen kiristys voi olla kuitenkin tarpeen tukirangan kaatumisen estämiseksi.

Huomaa: Kiinnitä produkt tukevasti vaakasuoralle alustalle heti kokoamisen jälkeen. tuotteen ankkurointi maahan on välttämätöntä sen vakauden ja jäykkyyden kannalta. Se vaaditaan tässä vaiheessa, jotta takuu olisi voimassa. Kiristä kaikki ruuvit täyttäessään kokoonpano.

VIGTIGT

Læs venligst vejledningen omhyggeligt, inden du begynder at montere dette produkt.

Udfør venligst trinene i den rækkefølge de er angivet i vejledningen.

Opbevar denne vejledning et sikkert sted for fremtidig reference.

Sikkerhedsadvarsel

- Af sikkerhedsårsager anbefaler vi kraftigt at dette produkt monteres af minimum 2 personer.
- Nogle dele har metalkanter. Udvis venligst forsigtighed, når disse komponenter håndteres. Bær altid handsker, sko og beskyttelsesbriller under montering.
- Forsøg ikke at montere produkt i blæsevej, eller under våde forhold.
- Forsøg ikke at samle produkt, hvis du er træt, har taget stoffer, medicin, eller alkohol, eller hvis du lider af svimmelhed.
- Bortskaf alle plastikposer på sikker vis - hold dem uden for børns rækkevidde væk.
- Hold børn væk fra monteringsområdet.
- Når du anvender en trappestige, eller elektriske værktøjer, så vær sikker på at du følger producentens sikkerhedsanvisninger.
- Hold taget og tagrenden fri for sne, snavs og blade.
- Det er farligt at stå under eller tæt ved taget, hvis det er belastet af store mængder sne.
- Læn dig ikke mod produkt og skub ikke til det under montering.
- Varme ting såsom netop brugte griller, blæselamper osv må ikke opbevares i drivhuset. Inden du anbringer naglerne, skal du kontrollere, at der ikke findes skjulte rør eller kabler i jorden.
- Tung eller skarpe genstande skal ikke lænes mod vægpanelerne.
- Sørg for, at der ikke er skjulte rør eller kabler i jorden, før du sætter stifterne (medfølger ikke)
- Berør ikke luftledninger med aluminiumsprofilerne.
- Hvis farve blev ridset under montage, kan den løses.
- **Bemærk:** Dette produkt skal forankres på en jævn overflade og et solidt fundament for at sikre stabiliteten. Sørg for, at skruer og ankre er kompatible med fundamenttypen. Sørg for, at der ikke er forhindringer imellem samlingsområdet og den endelige position.

Rengøringsvejledning

- Anvend en mild rengøringsopløsning, for at rengøre produkt, og skyl med rent koldt vand.
- Anvend ikke acetone, slibende rengøringsmidler, eller andre specialrengøringsmidler til at rengøre panelerne.
- Rengør produktet, når monteringen er udført.

Før montering

- Vælg stedet omhyggeligt inden du påbegynder samlingen.
- Gulvoverfladen skal være helt flad og vandret, og have solid grund under sig såsom beton, asfalt, etagedæk osv.
- Vælg et solrigt sted uden overhængende træer
- Anbring ikke produkt på et sted med kraftig vind.
- produkt skal placeres og opføres på en plan flade. Vi anbefaler kraftigt, at dette produkt fæstnes direkte til et solid betonfundament. Når du gør dette, kan du anvende de på forhånd borede huller i metalfundamentet.
- Færdiggør forberedelse inden udpakning af dele og begyndelse montering.
- Sorter delene og kontroller dem i forhold til indholdslisten.
- De forskellige dele bør lægges ud, så de er lettilgængelige. Put alle de små dele (skruer osv.) I en skål, så de ikke bliver væk.
- Henvend dig venligst til de lokale myndigheder hvis en tilladelse er påkrævet inden produktet konstrueres.

Under monteringen

- Sørg for at basen er firkantet ved at måle diagonalerne og niveauet ved hjælp af et "åndniveau".
- Du kan anvende silikone-smøremiddel som hjælp til at få panelerne ind profilerne.
- Spray ikke på polycarbonate-pladerne.
- Brug en gummihammer om nødvendigt.
- Alle paneler med de stemplede ord "THIS SIDE OUT" skal vende udad for at skabe fuld UV beskyttelse. Fjern plastikkister, når panelerne er låst på plads.

 Når du støder på informationsikonet, bedes du venligst se det relevante monteringstrin for yderligere kommentarer og hjælp.

 Dette ikon indikerer, at installatøren skal befinde sig inde i for produktet

 Dette ikon indikerer, at installatøren skal befinde sig uden for produktet

OBS:

- For at undgå ridser eller skader, anvend en et blødt underlag under delene under montering.

Trin

Trin 10: Sørg for, at fundamentet er firkantet ved at måle diagonalerne og kontroller, at det er vandret ved hjælp af et vaterpas.

Trin 14: Del 7180 bruges til hjælp til monteringen.

Trin 9: Afmonter **Del 7180** og monter den igen.

Trin 50 + 51: Gentag **trin 46-48**.

Trin 61: Venligst tilføj silikone på de ydre områder af delene **7581 og 7582** som illustreret.

Trin 82: Hvis vinduet ikke er lukket korrekt, skal du løsne skruerne, justere vinduesrammen og spænde skruerne igen.

Trin 100: Sørg for, at kablet er placeret i hullet (**# 7327**), og at kablet ikke forhindrer åbning af vinduet.

Trin 101: Fastgør drivhuset til hård overflade ved hjælp af **#7331** eller til blød overflade ved hjælp af **#7336**.

Trin 103: Stræk kablet ved hjælp af **#7332**.

* Stram alle skruer når du er ferdig med monteringen.

Skruerne 411 og møtrikkerne 412 & 466 bruges under hele samlingen.

- Skrue 411 skal skrues i udefra og møtrikkerne sættes på indenfor i drivhuset.
- Stram ikke skruer og møtrikker (411, 412 & 466) mere end to-tre omgange. Hvis ikke andet er anført, skal de ikke strammes, før panelerne er samlet.
- I nogle dele af samlingsprocessen kan en midlertidig stramning af nogle af skruerne være nødvendigt for at forhindre en profil i at vælte

Bemærk venligst:

Sørg for at fæstne produkt grundigt til et jævnt fundament udenmiddelbart efter det er færdigsamlet.

Forankring af dette produkt til jorden er afgørende for dets stabilitet og styrke.

For at sikre gyldigheden af din garanti, kræves det, at du gennemfører dette trin.

BELANGRIJK!

Alstublieft lees deze handleiding voor u begint met het assembleren van het product.

Alstublieft volg de stappen in de volgorde zoals vermeld staat in deze instructie.

Bewaar deze instructies op een goede plek.

Veiligheid en voorzorgsmaatregelen

- Vanwege veiligheidsredenen is het advies om dit product met minimaal twee personen te assembleren.
- Wees voorzichtig, sommige metalen onderdelen hebben scherpe randen. Draag tijdens de complete assemblage veiligheid schoenen-, bril en handschoenen.
- Probeer niet de Artikel tijdens winderig of regenachtig weer op te bouwen.
- Niet opbouwen bij vermoeidheid, wanneer onder invloed van drugs, medicatie of alcohol, of bij duizeligheid tijdens het bukken.
- Verwijder de plastic verpakking veilig en houdt deze buiten bereik van kinderen.
- Laat kinderen niet in de buurt van tijdens de opbouw.
- Bij het gebruik van trapladders of elektrisch gereedschap hanteer dan altijd de bijbehorende veiligheidsinstructies.
- Houdt de goot vrij van bladeren, sneeuw en vuil.
- Zware sneeuwbelasting op het dak kan het onveilig maken om eronder of in de buurt ervan te staan.
- Læn dig ikke mod produkt og skub ikke til det under monteringen.
- Varme ting såsom netop brugte griller, blæselamper osv må ikke opbevares i produkt.
- Zware of scherpe voorwerpen dienen niet te worden geplaatst tegen de wandpanelen.
- Zorg dat er geen verborgen leidingen of kabels in de grond zijn voordat u de pinnen plaatst (niet meegeleverd)
- Raak de bovengrondse electriciteitskabels niet aan met de aluminium profielen.
- Als de kleur tijdens de montage is bekrast, kan deze worden opgelost.
- **Opmerking:** dit product moet worden verankerd op een geëgaliseerd oppervlak en een stevige ondergrond om de stabiliteit te garanderen. Zorg ervoor dat schroeven en ankers compatibel zijn met het funderingstype. Zorg ervoor dat er geen obstructies zijn tussen het montagegebied en de eindpositie.

Schoonmaak instructies

- Om de Artikel schoon te maken, gebruik slecht milde reinigers en spoel dit af met schoon en koud water.
- Gebruik geen acetone, schurende detergents of andere speciale middelen voor het reinigen van de panelen.
- Maak het product schoon na assemblage.

Vóór de vergadering

- Kies deze locatie zorgvuldig voordat u begint met de montage.
- Het grondoppervlak moet perfect vlak en waterpas zijn en een stevige ondergrond hebben zoals beton, asfalt, een dek enz.
- Kies een zonnige positie weg van overhangende bomen.
- Plaats uw artikel niet in een gebied met overmatige wind.
- Opmerking: dit product moet worden verankerd op een geëgaliseerd oppervlak en een stevige ondergrond om de stabiliteit te garanderen. Zorg ervoor dat schroeven en ankers compatibel zijn met het funderingstype. Zorg ervoor dat er geen obstructies zijn tussen het montagegebied en de eindpositie.
- Voltooi de voorbereiding van de locatie voordat u onderdelen uitpakt en begint met de montage.
- Sorteert de onderdelen en controleer dit met de materiaallijst.
- Onderdelen moeten dicht bij de hand liggen. Bewaar alle kleine onderdelen (schroeven, enz.) in een kom zodat je ze niet verliest.
- Raadpleeg uw plaatselijke autoriteiten of er bepaalde vergunningen vereist zijn voordat u het product gaat bouwen.

Tijdens de Assemblage

- Zorg ervoor dat de basis vierkant is door de diagonalen en het niveau te meten met een waterpas.
- U kunt siliconenspray gebruiken om de panelen gemakkelijker in de profielen te schuiven.
- Spray niet de polycarbonaat panelen.
- Gebruik een rubberen hamer indien nodig.
- Alle panelen met de gestempelde woorden "THIS SIDE OUT" moeten naar buiten wijzen om volledige UV-bescherming te creëren. Verwijder de plastic sticker nadat de panelen op hun plaats vast zijn gezet.

Wanneer u het informatie-icoon ziet, ga dan naar de relevante montage stap voor aanvullende opmerkingen en assistentie.

Dit icoontje geeft aan dat de installateur binnen het product moet zijn

Dit icoontje geeft aan dat de installateur buiten het product moet zijn

Attentie:

- Gebruik een zachte ondergrond voor de onderdelen om krassen en beschadigingen te voorkomen.

Stappen

Stap 10: Zorg ervoor dat de basis vierkant is door de diagonalen en het niveau te meten met behulp van een waterpas.

Stap 14: Onderdeel 7180 wordt gebruikt voor assistentie bij de montage.

Stap 29: Na het installeren van de goot is het vereist om deze te verwijderen en weg te gooien (**onderdeel 7180**).

Stap 50 + 51: S.v.p. **stappen 46-48**.

Stap 61: S.v.p. silicone aanbrengen aan de buitenkant van onderdelen **7581 & 7582**, zoals afgebeeld.

Stap 82: Indien het venster niet correct is uitgelijnd, de schroeven losdraaien, het profiel aanpassen en de schroeven weer vastdraaien.

Stap 100: S.v.p. ervoor zorgen dat de kabel in het gat (**# 7327**) is geschroefd en de opening van het venster niet hindert.

Stap 101: Veranker de kas aan de grond met behulp van onderdeel **7331** voor een harde ondergrond of onderdeel **7336** voor een zachte ondergrond.

Stap 103: Trek de kabel uit m.b.v. onderdeel **7332**.

* Maak het product schoon na assemblage.

- Schroeven 411 en bouten 412 & 466 worden door het gehele montageproces gebruikt.
- Schroeven 411 moeten van de buitenkant gemonteerd worden en bouten 412 & 466 aan de binnenkant van de broeikas.
- Draai de schroeven en bouten (411, 412 & 466) niet meer dan 23-draaien. Indien niet anders aangegeven, draai ze niet vast tot voltooiing van de panelen assemblage.
- In sommige stappen kan het nodig zijn om enkele schroeven tijdelijk vast te draaien om het omvallen van een profiel te voorkomen.

Notitie: Sluit de kas stevig aan op een vlakke positie na het voltooiën van de montage.

Verankering van dit product aan de grond is van essentieel belang voor de stabiliteit en stevigheid. Deze fase dient te worden voltooid, om uw garantie geldig te laten blijven.

IMPORTANTE

Si prega di leggere attentamente le istruzioni prima di iniziare a montare questo prodotto.

Si prega di andare passo passo nell'ordine indicato in queste istruzioni.

Conservare le istruzioni in un luogo sicuro per un futuro riferimento.

Consigli sicurezza

- Per motivi di sicurezza si consiglia vivamente che il prodotto sia assemblato da almeno due persone.
- Alcuni componenti hanno dei bordi in metallo. Si prega di prestare attenzione quando si maneggiano questi componenti. Indossare sempre guanti, scarpe e occhiali di protezione durante il montaggio.
- Non cercare di montare il Prodotto in presenza di vento o pioggia.
- Non tentare di montare il Prodotto se siete stanchi, avete preso droghe, farmaci o alcool, o se siete inclini a vertigini.
- Smaltire tutti i sacchetti di plastica in modo sicuro - tenerli lontani dalla portata dei bambini.
- Tenere i bambini lontani dalla zona di assemblaggio.
- Quando utilizzate una scala o strumenti di potenza, assicuratevi di seguire i consigli di prudenza del produttore.
- Tenere tetto e grondaie pulite da neve, sporco e foglie.
- Un forte carico di neve sul tetto può rendere pericoloso stare al di sotto o nelle vicinanze.
- Non appoggiarsi o spingere la prodotto durante la sua costruzione.
- Oggetti roventi quali griglie o bruciatori per saldature usati di recente ecc., non devono essere introdotti nella Prodotto.
- Articoli pesanti o taglienti non devono essere appoggiati contro i pannelli delle pareti.
- Verificare che non vi siano tubi o cavi elettrici sotterranei prima di conficcare i paletti.
- Non toccare cavi elettrici con i profili d'alluminio.
- Se la vernice si è graffiata durante il montaggio può essere riparata.
- **Nota:** Questo prodotto deve essere ancorato a una superficie livellata e solida fondamenta per assicurarne la stabilità. Assicurarsi che viti e ancoraggi siano compatibili con il tipo di fondamenta. Assicurarsi che non ci siano ostruzioni tra l'area di montaggio e la posizione finale.

Istruzioni per la pulizia

- Per pulire il Prodotto, utilizzare un detergente delicato e risciacquare con acqua pulita fredda.
- Non utilizzare acetone, detersivi abrasivi o altri detersivi speciali per la pulizia dei pannelli.
- Pulisci il prodotto una volta che il montaggio è completo.

Prima dell'Assemblea

- Scegliete con cura il vostro luogo di montaggio prima di assemblare.
- Il terreno delle superficie deve essere perfettamente piatto e livellato e deve avere una solida base come cemento, asfalto, terra, ecc.
- Scegli una posizione soleggiata lontano dagli alberi sovrastanti.
- Non posizionare la prodotto in un'area troppo esposta al vento.
- **Nota:** Questo prodotto deve essere ancorato a una superficie livellata e solida fondamenta per assicurarne la stabilità. Assicurarsi che viti e ancoraggi siano compatibili con il tipo di fondamenta. Assicurarsi che non ci siano ostruzioni tra l'area di montaggio e la posizione finale.
- Completare la preparazione del posto prima di disimballare le parti e iniziare ad assemblare.
- Ordinare i componenti e verificare con l'elenco contenuto
- Le parti devono essere poste a portata di mano. Conservare tutte le piccole parti (viti, ecc.) in una baccinella per evitare di perderle.
- Si prega di consultare le vostre autorità locali in caso siano richiesti permessi prima di costruire il prodotto.

Durante il Montaggio

- Assicurarsi che la base sia quadrata misurando le diagonali e il livello usando una livella a bolla d'aria.
- Puoi utilizzare lo spray lubrificante al Silicone per aiutare i pannelli a scorrere nei profili.
- Non spruzzare sui pannelli in policarbonato.
- Usa un martello di gomma, se necessario.
- Tutti i pannelli con le parole stampate "THIS SIDE OUT" devono essere rivolti verso l'esterno per creare una protezione UV completa. Rimuovere l'adesivo di plastica mentre i pannelli sono bloccati in posizione.

 Quando si incontra l'icona delle informazioni, fare riferimento al passo di montaggio rilevante per ulteriori commenti e assistenza.

 Questa icona indica che l'installatore deve essere all'interno del prodotto

 Questa icona indica che l'installatore deve essere all'esterno del prodotto

Attenzione:

- Durante il montaggio utilizzare una superficie morbida sotto le parti per evitare graffi e danni.

Passaggi

Passo 10: Sverificare che il telaio sia in piano e quadrato misurando le diagonali e il livello utilizzando una livella a bolla. Ancorare la base a terra con vite / vite + cavicchio / punta (non in dotazione) in base alla superficie selezionata.

Passo 14: La Parte 7180 è usata per l'assistenza all'assemblaggio.

Passo 29: dopo aver installato la grondaia, è obbligatorio rimuovere il componente 7180 e scartarlo.

Passaggi 50+51: ripetere i **passaggi 46-48**.

Passo 61: Aggiungere il silicone sulla zona esterna delle **parti 7581 e 7582** come illustrato.

Passo 82: Nel caso in cui la finestra non si chiuda correttamente, svita le viti, regola il profilo e avvita la vite.

Passo 100: verificare che il cavo venga inserito nel foro (**#7327**) e non interferisca con l'apertura della finestra.

Passo 101: ancorare la serra a terra utilizzando il componente **#7331** per una superficie dura oppure il componente **#7336** per una superficie morbida.

Passo 103: allungare il cavo utilizzando il componente **#7332**

* Stringi tutte le viti al termine del montaggio.

- Le viti 411 ed i dadi 412 & 466 sono usati in tutto il processo di montaggio.
 - Le viti 411 devono essere inserite dall'esterno ed i dadi 412 & 466 dall'interno della serra.
 - Non serrare le viti ed i dadi (411, 412 & 466) più di 2-3 giri.
- Non serrare fino a montaggio completato dei pannelli, se non stabilito diversamente.
- Considera che, in alcune fasi, può essere necessario bloccare alcune viti per impedire ad un profilo di cadere.

Note: Collega saldamente la Prodotto ad una posizione immediatamente dopo il completamento del montaggio. Il fissaggio di questo prodotto a terra è essenziale per ottenere stabilità e rigidità. Affinché la garanzia sia valida è necessario completare questo passaggio.

OLULINE

Palun tutvuge käesolevate juhistega põhjalikult enne seda, kui alustate selle toote kokkupanemist.

Palun teostage nimetatud sammud käesolevates juhistes mainitud järjekorras.

Palun hoidke käesolevad juhised turvalises kohas alles, et tulevikus neid kasutada.

Ohutusnõuanded

- Ohutuskalutlustel soovitame toodet kokku panna vähemalt kahel inimesel.
- Mõnel osal võivad olla teravad ääred. Palun olge koostisosade käsitsemisel ettevaatlik. Kandke oma toodet kokku pannes või selle juures hooldustöid teostades alati kindaid, jalanõusid, ohutusprille ja pikki varrukaid.
- Ärge üritage toodet kokku panna tuulistes või märgades tingimustes.
- Ärge üritage toodet kokku panna, kui olete väsinud, olete tarbinud uimasteid, ravimeid või alkoholi, või kui muutute kergesti uimaseks.
- Vabanege kõigist plastikkottides turvaliselt - vältige nende sattumist väikeste laste käeulatusse.
- Vältige laste sattumist eseme kokkupanemisalale.
- Kasutades treppredelit või elektrilisi tööriistu, veenduge, et järgite tootja ohutusjuhiseid.
- Hoidke katus ja renn lumest, mustusest ja lehtedest puhtana.
- Raske lumekoorem katusel võib muuta katuse all või selle läheduses seismise ebaturvaliseks.
- Ärge nõjatuge kasvuhoone vastu või lükake seda kokkupanekul.
- Kuumad esemed, nagu hiljuti kasutatud grill, leeklamp jm ei tohi hoida toode.
- Raskeid või teravaid esemeid ei tohi vastu seinu paneele.
- Veenduge, et varjatud torusid või kaablit poleks maapinnas enne vaiade sisestamist.
- Ärge puudutage alumiiniumprofiilidega õhuliini kaableid.
- Kui kokkupanekul on värvikihti kriimustatud, siis on seda võimalik parandada.
- **Märkus:** Toode tuleb kinnitada tasapinnale ja tugevale aluspinnale, et tagada selle stabiilsus. Veenduge, et kruvid ja kinnitused on vastavad aluspinna tüübile. Veenduge, et puuduvad takistused kokkupanekupiirkonna ja lõppasendi vahel.

Puhastusjuhised

- Toote puhastamiseks kasutage pehmet pesuvahendilahust ja küürige toodet puhta külma veega.
- Ärge kasutage paneelide puhastamiseks atsetooni, abrasiivseid puhastusaineid ega muid erilisi detergente.
- Puhastage toodet siis, kui selle kokkupanek on lõppenud.

Enne kokkupanekut

- Valige kokkupaneku eelselt hoolikalt selleks sobiv koht.
- Aluspind peab olema täiesti tasane ja kindel ning tugeva põhjaga, nagu asfalt, betoon, tekk jms.
- Vali päikseline asukoht, kus ei oleks varjuheitvaid puid.
- Ärge paigutage toodet liigse tuulega kokkupuutuvalle alale.
- See toode tuleb paigutada ja kinnitada tasasele pinnale, et tagada selle stabiilsus. Soovitame tungivalt kinnitada see toode kindlale alusele. kasutage eelnevalt puuritud avasid terasest aluses.
- Lõpetage piirkonna ettevalmistamine enne osade lahtivõtmist ja kokkupanemisega alustamist.
- Sorteerige osad ära ja kontrollige, et kõik osade nimekirjas leiduvad osad on olemas.
- Soovitame asetada detailid käeulatusse. hoia väikeseid osi (kruvisid jms) kausis, et vaja ära ei kaoks.
- Palun konsulteerige oma kohalike võimudega, kui toote kokkupanekuks on tarvis lubasid.

Kokkupaneku ajal

- Veenduge, et alus on ruudukujuline, mõõtes ära diagonaalid ja veendudes, et pind on tasapindne - selleks kasutage vesiloodi.
- Paneelide profiilide vahele libistamiseks võid kasutada silikoonist määrdepihustit.
- Ära pihusta polükarbonaadist paneelidele.
- Vajadusel kasuta kummist vasarat.
- Kõik paneelid, millel on väljend "THIS SIDE OUT", peavad olema suunaga väljapoole, et luua täielik UV-kaitse. Eemaldage plastkleebis, kui paneelid on paika lukustatud.

Kui märkate informatsiooniikooni, vaadake täiendavaid märkuseid ja juhiseid vastava paigaldussammu alt.

See ikoon viitab sellele, et paigaldaja peaks paiknema toote sees.

See ikoon viitab sellele, et paigaldaja peaks paiknema väljaspool toodet.

Tähelepanu:

- Kokkupaneku ajal kasutage osade all pehmet pinda, et vältida osade kriimustamist ja kahjustamist.

Sammud

Samm 10: Veenduge, et raam on loodis ja ruudukujuline. Mõõtke selleks diagonaalid ja kasutage loodi.

Samm 14: Osa 7180 kasutatakse kokkupanemise toetamiseks.

Samm 29: Pärast renni paigaldamist tuleb osa **7180** eemaldada ja ära visata.

Samm 50+51: Korrake **samm 46-48**.

Samm 61: lisage osade **#7581 ja 7582** väliskülgedele silikooni, vastavalt illustratsioonil näidatule.

Samm 82: Kui aken ei ole õigesti suletud, siis vabastage kruvid, kohandada profiili ja keerake kruvi kinni.

Samm 100: Kontrollige, et kaabel oleks kindlalt avas (**nr 7327**) ja ei takistaks akna avamist.

Samm 101: Ankurdage kasvuhoone pinnale, kasutades kõvadatel pindadel osa **nr 7331** ja pehmetel pindadel osa **nr 7336**.

Samm 103: Venitage kaablit kasutades osa **nr 7332**.

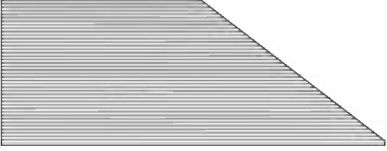

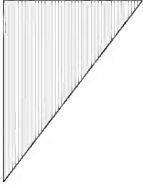

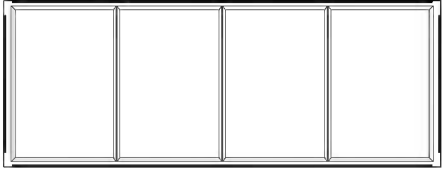

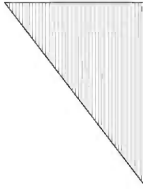

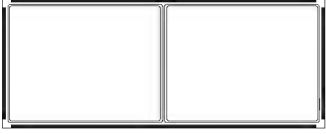

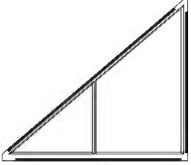

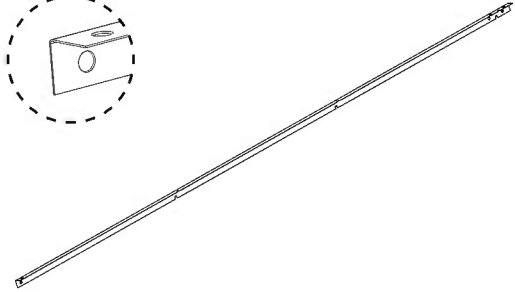

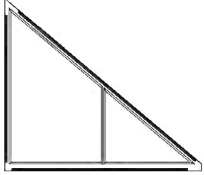

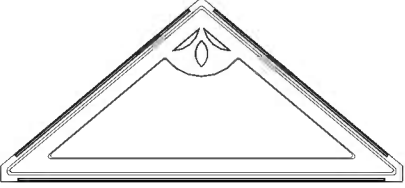

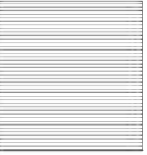

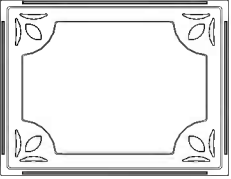

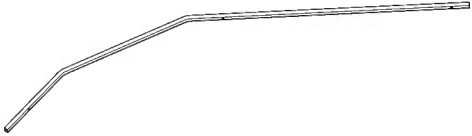

* Pinguldage kruvid alles siis kui toodet on komplekteeritud.

- Kruvisid 411 ja mutreid 412 & 466 kasutatakse läbivalt kogu kokkupanemisprotsessi ajal.
- Kruvid 411 tuleb monteerida kasvuhoone väljastpoolt ja mutrid 412 & 466 seestpoolt.
- Kui ei ole teisiti määratletud, ärge kinnitage kruvisid ja mutreid (411, 412 ja 466) rohkem kui ainult 2-3 pööret. Ärge pingutage neid enne paneelide komplekti valmimist. Need kaks ikooni näitavad, kas kruvide pingutamine on vajalik või mitte.
- Mõne sammu puhul võib profiili kukkumise vältimiseks osutada vajalikuks mõnede kruvide ajutine kinnikruvimine.

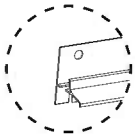

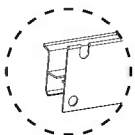

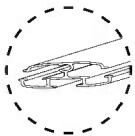

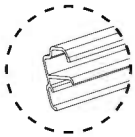

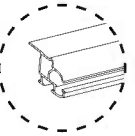

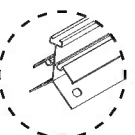

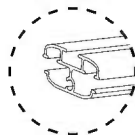

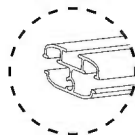

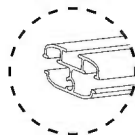

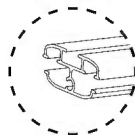

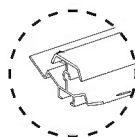

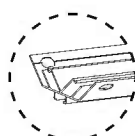

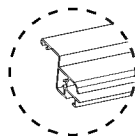

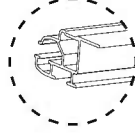

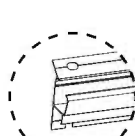

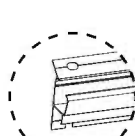

Märge: Kinnita toodet kindlalt tasasele pinnale kohe peale selle kokkupanemist toote pinnasesse ankurdamine on stabiilsuse ja jäikuse tagamiseks vältimatu. Selle etapi teostamine on garantii kehtimiseks kohustuslik.
